JOSEPH ATTEEN
User Experience & Frontend Engineer

I specialize in crafting intuitive and responsive user experiences with a strong focus on design systems and performance optimization. With expertise in modern frontend frameworks and tools like NextJS and Tailwind CSS, I bring innovative solutions to complex problems, ensuring seamless functionality and user satisfaction. My approach balances technical precision with design thinking, making me a key asset in bridging the gap between design and development.

Experience

UX Engineer, Hubtel
August 2023 - Present • Accra, Ghana

- Work closely with UX/UI designers to translate design mockups and wireframes into user interfaces.
- Provide feedback on design feasibility and suggest improvements from a technical perspective.
- Work in an agile environment with cross-functional teams, including developers, product managers, and stakeholders to ensure the delivery of responsive, accessible, functional and interactive user interfaces.

Software Engineer, Spring Data Works Limited
April 2023 - July 2023 • Accra, Ghana

- Developed system code according to the system design and standards.
- Provided troubleshooting and solutions to defects and errors in already existing code
- Elicited, documented, and managed requirements as per enterprise standards/guidelines.

Engineering Manager, CediRates
February 2023 - Present • Accra, Ghana

- Leading a team of engineers to build and maintain a functional data-intensive web app that provides daily updated fuel prices and exchange rates.

Frontend Developer, COLDSiS
July 2022 - March 2023 • Accra, Ghana

- Liaised with a UI/UX designer to redevelop the company website.
- Struck a balance between aesthetic and functional design to build optimized websites for both PC and mobile screens.
- Developed reusable components and modules.

Freelance Developer
2019 - Current

- Providing web solutions for clients using latest frontend technologies.

Education

Software Development (Mobile & Web), Codetrain
January 2022 - October 2023

Computer Engineering, Kwame Nkrumah University of Science & Technology
October 2017 - May 2019
